

Practice Limited to Children Ages: Birth-21

Minh Luong, DDS Jeffrey Herman, DDS Jody Lin, DMD

Services Provided by General Dentists

New Patient Consent

We at Toothfairy Children's Dental strive to provide the highest quality of care for all our patients. We do not allow insurance companies dictate the care our patients receive.

At your child's initial visit we will be taking a set of x-rays, clean his/her teeth, provide a fluoride treatment and oral hygiene instructions. Our doctors will do a comprehensive exam of your child's teeth and oral growth. Our doctors will be available to answer all your concerns at that time.

At the time of your child's six month checkup, another set of x-rays will be taken. We will clean his/her teeth and provide a fluoride treatment. We will evaluate your child's oral care progress and his/her oral growth. If your child needs orthodontic treatment a referral will be made.

To provide the highest quality of care, our doctors have recommended the above to be done. If there are procedures mentioned above that you would not like to have done for your child please mention to our staff.

I, _____ give Toothfairy Children's Dental doctors and staff permission to provide the above treatment for my child/children.
